Burroughs Audubon Society of Greater Kansas City Presents

## An Evening with Scott Weidensaul

### Caught in the SNOWstorm:

*The winter of 2013-14 saw the largest invasion of snowy owls into the eastern United States in perhaps a century -- and marked an unprecedented opportunity to learn more about these mysterious Arctic hunters. Author and researcher Scott Weidensaul will share the story of Project SNOWstorm -- how a huge, collaborative research effort focused on snowy owls came together in a few frantic weeks, funded with the help of people from around the world, and which years later continues to make discoveries and unexpected insights into the life and ecology of this great white raptor.*

### Biography: Scott Weidensaul

© Beth Sanders

*Scott Weidensaul is the author of more than two dozen books on natural history, including the Pulitzer Prize finalist "Living on the Wind," about bird migration, "Return to Wild America," and "The First Frontier: The Forgotten History of Struggle, Savagery and Endurance in Early America." His newest book, "The Peterson Reference Guide to Owls of North America and the Caribbean," has just been published. Weidensaul is a contributing editor for Audubon and a columnist for Bird Watcher's Digest, and writes for a variety of other publications; he lives in the mountains of eastern Pennsylvania, where he studies the migration of owls and hummingbirds.*
