# Bonnie The Biologist

## June

Everyone of all ages welcome!

Program and literature are **FREE!**

### Plankton in the Midwest and Lab

Thursday, June 7  
10:00 a.m. – Noon  
AND  
Saturday, June 16  
10:00 a.m. – Noon

The mysterious and  
dynamic world of the  
unseen: if not for these  
micro-organisms, vital  
nutrients would be missing  
from the food chain. From  
the oxygen we breathe to  
food for everything from  
hydra to whales; all rely on  
plankton! Microscopy Lab  
included.

### Spiders!

Wednesday, June 13  
10:00 a.m. – Noon  
AND  
Thursday, June 21  
10:00 a.m. – Noon

Jumping, hunting, weaving,  
and spinning--Midwest  
spiders and arachnids rule  
the world of the unseen.  
They are beneficial and  
valuable to even precious,  
and life without them  
would be unbearable. Their  
services are indispensable.

### Citizen Science

Banders from the Missouri River Bird  
Observatory (MRBO) gently net, identify,  
record vital statistics, and uniquely band  
captured birds before giving visitors the  
opportunity to release them! Come and go  
as you like during the three-hour program.

Returning November 2018
