Bonnie The Biologist

June

Everyone of all ages welcome!

Program and literature are **FREE!**

Plankton in the Midwest and Lab

Thursday, June 7
10:00 a.m. – Noon
AND
Saturday, June 16
10:00 a.m. – Noon

The mysterious and dynamic world of the unseen: if not for these micro-organisms, vital nutrients would be missing from the food chain. From the oxygen we breathe to food for everything from hydra to whales; all rely on plankton! Microscopy Lab included.

Spiders!

Wednesday, June 13
10:00 a.m. – Noon
AND
Thursday, June 21
10:00 a.m. – Noon

Jumping, hunting, weaving, and spinning--Midwest spiders and arachnids rule the world of the unseen. They are beneficial and valuable to even precious, and life without them would be unbearable. Their services are indispensable.

Citizen Science

Banders from the Missouri River Bird Observatory (MRBO) gently net, identify, record vital statistics, and uniquely band captured birds before giving visitors the opportunity to release them! Come and go as you like during the three-hour program.

Returning November 2018
