Bonnie The Biologist

Sept. Everyone of all ages welcome!

Program and literature are **FREE!**

Bats – Unidentified
Winged Things of the
Night?

Thursday, September 13
10:00 a.m. – Noon
AND
Wednesday, September 19
10:00 a.m. – Noon

They are fascinating,
bewildering, and sometimes
scary, but bats are a vital part
of our Midwestern
ecosystems. Come learn about
these iconic creatures of
Halloween, and the latest
conservation efforts on their
behalf, as well as our own.

Prairie Mammals

Saturday, September 15
10:00 a.m. – Noon
AND
Thursday, September 20
10:00 a.m. – Noon

Amber and violet waves of
nutritious and beneficial
plants support some of the
most unusual, diverse, and
regal mammals on the planet.
We'll investigate the natural
history of these animals, as
well as our pioneer history
that's reflected in their names
and legends. Come learn
about their impact on
mankind throughout history to
the present day.

Citizen Science

Banders from the Missouri River Bird
Observatory (MRBO) gently net, identify,
record vital statistics, and uniquely band
captured birds before giving visitors the
opportunity to release them! Come and go
as you like during the three-hour program.
